Intelligent Networks (IN) are driven by 'inferencing engines' which monitor traffic flow information to automatically manage transmission, connection and service allocation across themselves. Signaling intelligent networks can handle and control complex multimedia services. Relating to practical system development, this title provides an excellent overview of the current status and future trends in broadband network evolution and multimedia services.
INTELLIGENT NETWORKS AND BROADBAND SIGNALING FOR MULTIMEDIA SERVICES.
Intelligent Networks (G. de Zen & P. Todorova).
Broadband Signaling (L. Faglia, et al.).
ARCHITECTURE OF INTELLIGENT BROADBAND NETWORKS: FUNCTIONAL AND
PHYSICAL ENTITIES.
General Framework for Intelligent Broadband Networks (H. Hussmann & I. Venieris).
Functional Models (H. Brandt, et al.).
Advanced Protocols for Multimedia Services (G. Marino, et al.).
Intelligent Network Service Specification (A. van der Vekens, et al.).
The Broadband Service Switching Point - B-SSP (A. van der Vekens & F. Zizza).
The Broadband Service Control Point - B-SCP (J. Humphrey, et al.).
The Broadband Intelligent Peripheral-B-IP (H. Brandt & Ch. Patrikakis).
Practical Experience with Intelligent Broadband Networks - The INSIGNIA Trials (B. Koch).
NETWORK EVOLUTION AND INTELLIGENT NETWORK INTEROPERABILITY.
Interoperability of Intelligent Broadband Networks (H. Hussmann & I. Venieris).
Comparison and Interoperability of Intelligent Broadband Networks with TINA (M. Geipl & I. Venieris).
Relationship of Intelligent Broadband Networks with Pure Broadband ISDN (S. Salsano).
Relationship of Intelligent Broadband Networks with Narrowband Intelligent Networks (A. van der Vekens).
Relationship of Intelligent Broadband Networks with Internet (H. Hussmann).
PERFORMANCE DRIVEN DESIGN OF INTELLIGENT BROADBAND NETWORKS.
Performance Issues in Intelligent Broadband Networks (H. Hussmann & I. Venieris).
Methods and Models for Performance Analysis (G. Kolyvas, et al.).
Congestion Control (F. Bernabei & L. Gratta).
Scalability (V. Nicola, et al.).
Appendices.
