IMPORTANT
The wires in this mains lead are coloured in accordance with the following code.

Green-and-yellow: Earth
Blue: Neutral
Brown: Live

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows.

The wire that is coloured green-and-yellow must be connected to the terminal in the plug that is marked with the letter E or by the earth symbol or coloured green or green-and-yellow.

The wire that is coloured blue must be connected to the terminal that is marked with the letter N or coloured black.

The wire that is coloured brown must be connected to the terminal that is marked with the letter L or coloured red.

WARNING: This appliance must be earthed.

IMPORTANT SAFETY INSTRUCTIONS - READ CAREFULLY BEFORE USE
When using this electrical appliance, to reduce the risk of fire, electric shock or injury, these basic precautions should always be followed.

1. Do not leave appliance, when plugged in. Unplug from outlet when not in use and before servicing.
2. Do not use outdoors or on wet surfaces. This machine is not designed to collect liquid.
3. Do not allow to be used as a toy. Close attention is necessary when used by or near children.
4. Use only as described in this manual. Use only manufacturer’s recommended attachments.
5. Do not use with damaged cord or plug. If appliance is not working as it should, it has been dropped, damaged, left outdoors, or dropped into water, return it to the RS service centre.
6. Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
7. Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
8. Do not handle plug or appliance with wet hands.
9. Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce air flow.
10. Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
11. Do not pick up anything that is burning or smoking, such as cigarettes, matches or hot ashes.
12. Do not use without dustbag and filter in place.
13. Turn off all controls before unplugging.
14. Use extra care when cleaning on stairs.
15. Do not use to pick up flammable or combustible liquids such as gasoline or use in areas where they may be present.

Operating instructions
1. Before use remove the transport plug and chain, which is situated on the right hand side of the case. This machine must NOT be switched on with the plug in place.
2. After removing plug, insert the expanding hose into the hole and connect the appropriate cleaning tool to the free end.
3. Connect the rubber lead to the socket situated on the left side of the cleaner and connect into the main electrical supply. 220 - 240V  ~  50Hz only.
4. Switch on and the machine is now ready for use.
5. For the best results and long term efficiency of the machine, you are advised to change the inner disposable paper filter bag after each cleaning or when the bag is half full.
6. This machine must never be used without the secondary cloth filter bag as the motor may then become clogged and will overheat.
7. The red thermal warning light will operate if the machine is overheating because of the filtration system overfilling.
8. Should the warning light come on, switch off, change the disposable filter bag and allow the machine to cool down for 20-25 minutes before switching on again.
9. The machine should be unplugged from the main electrical supply before attempting any change of filter bags.
10. Remember to replace transport plug after use.
11. This cleaner must never be used without the complete filter systems which includes aluminium filter box, filter foam cloth, filter bag and paper filter bag.
12. Removal of the motor housing plate invalidates the guarantee.

IMPORTANT: Only use RS disposable filter bags. The use of any other filter bag or parts will invalidate any service agreement you may have with RS.

Technical specification (UK and Europe)
Motor: 220 - 240V 800W 50Hz (5A Fuse)
Suction: Approx. 1400mm-W.G.
Airflow: Approx. 34 litres per second unimpeded
Thermal protection: Cut out. 75°C - 80°C
Automatic reset: Approx. 20-30 minutes
Dimensions: 465 x 180 x 135mm
Weight: 5.2Kg
