

77-153 CL2 - FatMax® Self-Leveling Cross Line Laser Level

Features and Benefits

- The Cross-Line laser level rapidly and accurately projects both vertical and horizontal lines at the press of a button
- The self-leveling feature ensures that the lines are level and alerts the user if the line becomes out-of-level
- Pendulum self leveling mechanism for accuracy and peace of mind
- Heavy duty magnetic damping compensator for rapid and stable leveling
- "Out-of-level" sensor automatically alerts the user that the tool is outside it's +/- 4 degrees self-leveling range and is no longer level
- Two 650 nm diodes for maximum line visibility
- One-button function– easily switch between four (4) functions: horizontal line, vertical, cross-line and tilt function
- Fitted with 1/4-in x 20 thread camera tripod mounting thread
- Heavy duty rubber sleeve for added protection and comfort grip
- Includes: Laser level, carrying case, batteries, instruction manual

Working Range : Up to 32'

Working Environment: Designed for interior use

Leveling Accuracy: +/- 1/4-in @ 30'

Line Accuracy: +/- 3/32-in end to end @ 10' perpendicular distance

Leveling Type: Pendulum Self Leveling, +/- 4 degrees in any direction

Laser Diode: Two 635-670nm

Laser Class: Class 2M

Batteries: 3 "AA" Alkaline batteries (included)

Battery Life: Up to 60 hours intermittent use

Warranty: 12 Months
