

Weller® solder station WSM

Small and handy to work everywhere Weller® soldering station WSM

Ideal for all soldering applications that do need a handy and uncomplicated station but be done professionally.
ESD safe and designed for use in laboratories, repair, service and industrial engineering.

Soldering station WSM 1 with Micro soldering WMRP and safety rest

WSM 1

Description

- ESD safe, for industrial applications
- Built in Stop+Go function for energy efficient switch off
- Touch sense technology
- Sonderfunktions-Menü für kundenspezifische Einstellungen
- Temperature-locking funktion
- 2 adjustable temperatures
- Potential equalization socket
- Integrated micro soldering iron WMRP 40 W in chrome design
- Changeable, high efficient Micro soldering tip RT 3, chisel, 1,3 mm and integrated heating element
- Safety rest with WDC dry cleaner

Scope of delivery

- WSM 1 soldering station with WMRP pencil
- Safety rest with WDC dry cleaner
- RT 3 integrated soldering tip, chisel, 1,3 mm
- Energy efficient switching power supply

Order No.: 810 32926

WSM 1C - The mobile rechargeable version

Like WSM 1, plus rechargeable battery for mobile, cordless service.
The perfect alternative to gaz powered irons.

- Latest LiFePo4-rechargeable technology
- Up to one hour soldering capacity
- Recharged in 20 minutes

Scope of delivery

- WSM 1C soldering station with rechargeable battery and WMRP pencil
- Safety rest with WDC dry cleaner
- RT 3 integrated soldering tip, chisel, 1,3 mm
- Energy efficient switching power supply

Order No.: 810 32936

Technical data

Temperature range:	100 °C - 400 °C
Heat up time:	4 sec.
Power:	40 W / 12 V
Soldering iron:	Integrated WMRP iron with RT 3 soldering tip, chisel 1,3 mm
Energy efficient switching power supply:	100 – 230 V

**Exceptional performance
at an exceptional price!**
